

The Jacksonville Area
Chamber of Commerce
Agri-Industry Division invites you to

2008 Day on the Farm

Monday, October 13

3:00 p.m.

Meet at the Chamber

Rain or Shine

Groups of three will visit a farm with one liaison
from the Agri-Industry Division.

The sophistication and technological advances over the past decade have been amazing. Many of these harvest activities and new technologies will be demonstrated during the farm visit. While many people in this area have roots in agriculture, they may have been removed from the farm for quite a while. Join us for "A Day on the Farm" and get re-connected with your roots!

2008 Day on the Farm

Please RSVP to the Chamber by October 9

Yes, I / we will attend.
